About

BCA student focused on full-stack development, backend engineering, and AI-driven data applications. Experienced in building REST APIs, authentication systems, database-backed applications, semantic search, and data analysis solutions. Interested in developing scalable software and applying data-driven approaches to solve practical problems.

Education

Bachelor of Computer Applications (BCA)

Tula's University, Dehradun

Class XII: 70%

2024–2027

CGPA: 7.83/10

Class X: 83%

Technical Skills

Languages: C, C++, Python, JavaScript, TypeScript

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, NestJS, FastAPI, REST APIs

Databases: PostgreSQL, MySQL

AI & Data: Elasticsearch, Sentence Transformers, NLP, Semantic Search, Data Analysis

Tools: Git, GitHub, Docker, JWT

Experience

Data Analytics Intern — InAmigos Foundation

Jun 2026 – Jul 2026

Remote

[Certificate](#)

- Worked on data cleaning, organization, and analysis tasks using real-world datasets to support decision-making.
- Prepared concise reports and collaborated with a remote team to complete assigned tasks on schedule.

Projects

Pyramid — Full-Stack Task Management System

[GitHub](#)

[Live Demo](#)

- Built a full-stack task management platform with Kanban/list views, projects, subtasks, comments, search, and filtering.
- Implemented NestJS REST APIs with JWT authentication, TypeORM, PostgreSQL, validation, rate limiting, security headers, and data isolation.

AI-Powered E-Commerce Search Engine

[GitHub](#)

- Built an AI-powered search engine combining keyword search, typo tolerance, and semantic search to understand query intent.
- Developed FastAPI APIs using MySQL, Elasticsearch, Sentence Transformers, and Docker with a React frontend.

LiveCode — Real-Time Collaborative Code Editor

[GitHub](#)

- Worked on a browser-based collaborative coding environment supporting real-time editing, project persistence, terminal access, and communication.
- Used React/Next.js, Node.js, Express.js, Monaco Editor, Xterm.js, and Docker-based isolated code execution.

Certifications & Achievements

- Full-Stack Web Development Bootcamp — Udemy
- Flutter & Dart Development — Campus Sutras
- The Crypto Heist CTF — ThunderCipher
- 3rd Place — Code Sprint, Utkrisht 2024
